SUMMARY

Hi, I am a frontend developer. Specialising in creating visually appealing and responsive websites using HTML, CSS, javascript, React, node, express, mongoose, bootstrap.

PROJECTS

Keeper

📅 03/2023 - 03/2023 📍 Location

It is similar to a Google keeper here you make your notes online and save. For reminder. To create this project I used react, express, node, mongodb, css. It is a responsive to all devices

Portfolio website

📅 06/2023 - 07/2023 📍 Location

An online portfolio is an excellent reflection of who you are as a person and professional. you can choose how to represent yourself, what work to display, what achievement to list, etc. again design and layout are essential here.
